8. The audio files are in MP3 format and embedded as an attachment to a PDF (you will need a program that can play MP3 files if you don't have one installed on your

PC/Notebook). Click the **Attachments** tab or paper clip icon (you will need the latest version of Adobe Acrobat Reader) to display a link to the MP3 file.

9. The Attachment window will then be shown. **Double Click** on the embedded audio file to open it (you can also click on the embedded audio file and then click **open** or **save**).

10. Adobe acrobat will then warn you of the dangers of opening attachments. Since these files are attached by the court directly they will be **virus free**. **Click OK** to open the file and your default audio player will pop-up and begin playing the audio file.
